

TRAVELLER OF THE MONTH

Some time last year, a lady called me from Reality Vacation Innovations and said I had won a 3 day free accommodation voucher in South Africa, Kenya or Zimbabwe. I quickly summed it all as 419 not until she mentioned my neighbors who referred my family at the RVI presentation they attended.

My husband and I decided to give it a trial by attending the workshop/ presentation ourselves and it was quite interesting. We signed on immediately as members of the club and our free accommodation was upgraded to seven days either in South Africa, Kenya or Zimbabwe.

Precisely by January we decided to see how everything about RVI club membership works by taking a trip to the United Kingdom which we were very familiar with. RVI secured us accommodation bookings at a resort called the Odessa Wharf in South East London which I can say was a home away from home.

The serene environment, the more than comfortable accommodation, the proximity to the Dockyard where you could have a boat ride with the children and above all the staff who were always there to see to all your needs, made our stay a very memorable one. No wonder the Odessa Wharf won a Gold Medal for the best Holiday resort in the RCI group all over the world.

RVI is really a top notch holiday club and its Fantastic. They provide you with the most beautiful resort accommodation all around the world. RVI is the burden that makes your holidays stress free and interesting. We had an incredible holiday and even our guests in London attested to the more than five star quality of our accommodation. We are very happy knowing that as members of RVI, our holidays have been secured for life.

Thank you RVI

Mr. & Mrs. Olufemi Fagbenro-Byron
