

TRAVELLER OF THE MONTH

It was indeed an adventure to travel to South Africa under the auspices of RVI/RCI arrangement. We embarked on our journey on the 20th of April 2007, after due accommodation reservation was made at the Mount Amanzi Holiday Resort, Johannesburg by RVI/RCI being our free gift which we won from RVI. Another reservation was made at the Silver Sands Resort, Durban being our normal holiday subscription.

Having arrived at the Johannesburg airport and after a 45minute drive, we were adequately accommodated in our well furnished self catering accommodation at the Mount Amanzi Resort. Mount Amanzi is located at the Hartbeespoort Dam area in the North Western region of South Africa. With its ecstatic views, the resort also has good facilities that are quite entertaining. It was truly a home away from home. We also visited the famous Sun City, which is a short drive from the resort. We are short of words to describe what we saw there. It is truly a world of its own. While in the Johannesburg area, we also went to one of the most gigantic shopping malls in South Africa, the Mandela Bridge and other places of interest. We had a great time!

On to our second week in Durban, where accommodation was once again already arranged by RVI/RCI.

Our apartment was on the 9th floor of the Silver Sands Resort from which the ocean view was delightful. While in Durban we visited the famous Ushaka Marine World where we had some glamorous moments such as the Dolphin show, Seal show, a wrecked ship with its aquarium, shopping complexes and lots more. Durban as a matter of fact is a beautiful city to behold. It is indeed a tourist center bubbling with social activities. We never regretted any moment spent in Durban or any of the other cities we visited.

My family and I had a marvelous time on holiday in South Africa. We look forward to more memorable holidays as holiday owners with RVI/RCI and I feel secure knowing that our holiday accommodation is secure for as long as we live. Thank you RVI/RCI for making it possible for us.
